RE: LETTER OF RECOMMENDATION

To Whom it May Concern,

I am writing to recommend Mujtaba Basheer for the role of Back-End Web Developer & Full Stack developer.

I have known Mujtaba since August 2016 as a good friend and from 1st March, 2020 I onboarded him in my company in the role of Back-End web developer intern for a duration of 6-months ending on 30th August, 2020. In this 6 months Mujtaba has worked hard and shown his strength. His responsibility at Collegeshala was building the whole back-end using Node.js on AWS using various AWS services on a serverless Architecture. He always did his task within the time-frame provided, and was very helpful to his co-workers too. He is an amazing co-operative person, since there was COVID-19-lockdown Mujtaba along with the whole team had worked remotely without any physical meeting. Still after all these hurdles his deliverables were on-mark as per required.

I have always known Mujtaba to be very daring who takes up challenges, is a quick learner and learns stuff on the job to execute the job and hardworking.

Based on our experience together, I can confidently recommend Mujtaba for the role of Back-End Web Developer & Full Stack developer.

Sincerely,

Mohamed Fazal Mustafa.

CTO, CollegeShala.
